## Welcome!

This is an exciting time for us at NIS. We've served the Michigan educational marketplace since the 1970s, and now, in 2006, we are introducing our menu of optional benefits.

Why did we wait so long? Well, changes and choices are available to Michigan schools like never before. Many are seeking out and taking advantage of new health insurance programs. And sometimes changing the health insurance plan means having to change the association-sponsored Options package that has been in place for so long.

We think this creates an opportunity. Since innovative new plans are available for health insurance, why not new innovations to the Optional packages of life and disability benefits?

That's where we come in. We've taken the same basic structure of the typical Options plans, and added more choices for employees, higher available coverage amounts, at lower rates than most of what's out there in the school marketplace.

We hope you find our new Options package better meets your needs and fits your budget. And we back it all with the personal service and expertise of our staff.

All of us at NIS look forward to serving you.

Sincerely,

National Insurance Services  
Administrator of Schools Insurance Fund

## About National Insurance Services

National Insurance Services (NIS), administrator of Schools Insurance Fund, was founded in 1969. We got our start by providing cost-effective, customized Long-Term Disability insurance to Wisconsin school employees.

Since then, NIS has expanded to serve over 1,200 schools in 25 states. In Michigan alone, we service more than 200 group life, disability, and retirement plans for public educational employees.

We believe NIS to be the best combination of price, innovation, and service available to the public educational marketplace. But don't take our word for it: beginning in 2000 our annual independent survey of active clients, conducted by MRA – The Management Association, Inc., has demonstrated consistently that 99% of respondents would recommend NIS to other educational employers.

## About NIS Options

This package of voluntary employee benefits was created primarily as an alternative to the association-type programs traditionally available to Michigan school employees.

Our plans are designed to offer the following advantages over other programs:

- Higher coverage amounts
- Competitive pricing
- Continuity of coverage to enrollees under a prior carrier's plan
- Similar structure to other "association-type" programs, allowing for a simple transition for employer and employees.
